

Page not found (404)

Request Method: GET

Request URL: http://127.0.0.1:7711/

Using the URLconf defined in `Basic_Authentication_Project.urls`, Django tried these URL patterns, in this order:

1. `admin/`
2. `^api/`

The empty path didn't match any of these.

You're seeing this error because you have `DEBUG = True` in your Django settings file. Change that to `False`, and Django will display a standard 404 page.
